EXPERIENCE

Front End Developer

Decimal Solution

10/2024 - Present Islamabad, Pakistan

Decimal Solutions is a dynamic IT services and consulting firm, offering a wide range of digital solutions to businesses across the United States, Pakistan, and the Middle East. Founded in 2015, the company specializes in custom software development, ERP systems, web and mobile app development, UI/UX design, mobile game development, digital marketing, and CRM/SaaS solutions. With a team of 50-100 professionals, Decimal Solutions partners with over 50 clients to drive digital transformation and enhance business operations.

- Completed a **3-month internship** in front-end web development, transitioning to a **full-time role** based on performance.
- Developed and maintained **8+ responsive web pages** using **Next.js**, **React.js**, **TypeScript**, and **Tailwind CSS**.
- Contributed to the front-end architecture of an **ERP system (BAVIT)** used for managing customizable electronic products.
- Participated in **10+ Agile sprint cycles**, attending stand-ups, reviews, and retrospectives as part of a Scrum team.
- Conducted manual testing and bug fixing, reducing reported front-end issues by **40%**.

PROJECTS

BAV-IT (ERP System)

- Developed the front-end of the BAVIT ERP system using **Next.js** and **TypeScript**, ensuring a modern and scalable user interface.
- Created responsive, high-performance pages and components with **Tailwind CSS**, ensuring smooth user interactions across devices.
- Collaborated with back-end developers to integrate APIs and manage real-time data flow, optimizing the system's overall functionality.
- Focused on user experience, ensuring the interface was intuitive and aligned with the platform's business requirements.
- Implemented performance optimization techniques to reduce load times and improve overall system responsiveness.

LIT-HUB Website

- Designed and developed a responsive and user-friendly front-end interface with React.js and Tailwind CSS.
- Built secure user authentication and session management using Express.js and MongoDB.
- Implemented book listing, search, and exchange request functionalities.
- Created a scalable backend API to support future platform growth.
- Ensured smooth user experience across desktop and mobile devices.

PROJECTS

Decimal Solution Website

- Developed and optimized the front-end of client websites and applications, focusing on responsive design and seamless functionality using **React.js** and **Tailwind CSS**.
 - Enhanced the user interface of digital platforms, ensuring an intuitive and engaging user experience across all devices.
 - Worked closely with back-end developers to integrate dynamic data, ensuring smooth interactions between the front-end and server-side functionality.
 - Applied performance optimization techniques to improve page load speeds, reducing load times and increasing overall site performance.
 - Actively participated in Scrum ceremonies, collaborating with team members to ensure efficient project execution and delivery.
-

Axiom Website

- Developed and maintained responsive, high-performance user interfaces for client projects using React.js, Tailwind CSS, and JavaScript.
- Collaborated with cross-functional teams to design and implement seamless user experiences, ensuring alignment with client requirements and business goals.
- Optimized web applications for maximum speed and scalability, enhancing overall user satisfaction.
- Participated in agile development processes, contributing to sprint planning, code reviews, and continuous improvement initiatives.
